Agriculture Class Reporter, John Padgett.

The agricultural class has organized a chapter of the Future Farmers of Florida, a national organization now active in every state in the Union and the Hawaiian Islands.

To be eligible for membership a boy must be enrolled in a class taking agriculture under the supervision of a Smith-Hughes teacher.

The purpose of the organization is as follows:

1. To promote vocational agriculture in the high schools of Florida.
2. To create more interest in intelligent agricultural pursuits in the various counties of the state.
3. To create and nurture the love of country life.
4. To provide recreation and educational entertainment for students in vocational agriculture.

For the past few weeks efforts have been made to put the campus back of the school building in condition suitable for a baseball field and tennis courts.

First all the ground was cleared, then Mr. Speer and the agriculture boys raked off all the paper and grass. This week the holes have been filled in and the ground leveled so that in a few more days the field will be ready for use.

The tennis court is being leveled by the concrete scraper and the court is expected to be in condition to play on in the next few days.

SUCCESS OR FAILURE

When we come to the end of our journey.
And our past life comes into our minds.
What kind of a life will we find?
What kind of a life will we find?

Will we find that we have been honest?
Our dealings with all of our neighbors.
Has been such that they only can bless?
Or will we look sad at the record of the deals we unjustly put through?
Hurting our friends and our neighbors.
We'll pass on as a friend that's untrue.

—FRANK FRIEND.

ORCHIDEE TAXES

The Okeechobee tax roll totals a little over \$600,000, with about \$325,000 of it on personal property and the remainder on real estate. The assessed valuations were lowered from last year. The council accepted the tax roll.

FIELDS OF DANIELS MARK

FLORIANE SEED OF BEAUTY

Glades County Democrat.

One of nature's most beautiful forms of creation is that of wild flowers, and no more striking example of the handwork of Mother Nature is to be found than the fields of yellow daisies adjoining the LaBelle road.

A few miles east of Citrus Center, there are many acres which are completely covered with blooming plants. The flower is the coronopsis, a brilliant yellow daisy with dark center, which grows profusely and blooms abundantly.

Those who have not traveled this road in the past two weeks should make a trip to Citrus Center to see these beautiful fields in full bloom. It is well worth a longer and more tiresome drive.

SUGAR CANE USED IN

BRAZIL AS MOTOR FUEL

RIO DE JANEIRO, Oct. 30.

"Azulina" is the name which has been given to a new motor fuel much used in the state of Pernambuco. Its producers are a group of sugar manufacturers who have visualized the economic possibilities offered by an alcoholic motor fuel.

They have incorporated a corporation to exploit "Azulina." This is basically a mixture of ether and an alcohol derived from cane sugar, the residues of which are usually thrown away by the sugar mills in Pernambuco, and other states.

Bank of Canal Point

CANAL POINT C. P. High School

Mr. and Mrs. R. M. Brandon, Mrs. Dauphin, and Mrs. Powell, of Bowling Green, called this week on Mrs. W. A. Adams in regard to Eastern Star work.

Earl Watts has made a playground for children on lots near the Mrs. F. C. Robinson is giving a party Saturday afternoon for her daughter Margaret, in honor of her fifth birthday. Mr. and Mrs. Robinson came here from Kansas City, Mo., short time ago.

Jake Boyd, county engineer, and G. Thorngren, kept visitors to Canal Point yesterday. Mr. Boyd is directing some survey work for the town of Pahokee which is levying assessments for the rebuilding of the main street.

G. B. McQuinn, agent for the Fruit Growers Express, came down from Okeechobee this week to estimate the amount of levy and the number of cars the bean movement will call for. He had returned to the Glades only a few days. He followed the peach deal through Georgia to Michigan this summer.

Grady Boynton had a portion of the canal bank, on the south side, cleaned up and it looked as if he was going to have flowers planted there, but it turns out he figures on having a pepper bed.

Little by little the sugar company hopes are being occupied and the occupancy makes it look like a town instead of a deserted village as it did when the thirty houses were vacant.

All of the chief officials of the Southern Sugar Company were in Canal Point Sunday. R. G. Duff, president; Jules M. Burguiere, executive vice president; Captain Bishop, operating vice president; F. Deane Duff and George Johnson, Mr. Dahlberg's secretary; George Barr Baker of New York, formerly director of Greater Light, and the American Red Cross was a member of the party. He is now connected with the Curtis-Bright interests. From here Mr. Dahlberg went to Tallahassee on the land deal.

CALLERS

Isaac T. Cook of St. Louis, who cleared up a land deal at Moore Haven and Clewiston six years ago, was a group of St. Louis investors, was a caller in Canal Point the latter part of the week coming over from Clewiston with Captain F. Deane Duff, who is formerly from St. Louis, after straightening out the land deal six years ago Mr. Cook spent a good deal of time in advancing Clewiston's interests. Recently he returned from a tour of Ireland, Scotland and England on which he was accompanied by his wife and daughter. Mr. Cook is a director in the Oxford Company and it was he who got R. G. Dahlberg interested in the Everglades.

PAHOKEE ROAD JOB TO ORLANDO FIRM

GROVER SONS COMPANY MAKE LOW BID TO STATE ROAD DEPARTMENT

Contract for rebuilding the 11 miles of state road 143 between Pahokee and Belle Glade was awarded Tuesday by the State Road Department to S. J. Groves Sons & Company of Orlando at \$190,808.78. Bid was made on road with bids on several other roads and bridges had been received by the department on Monday and were held over for examination.

The Huffman Construction Company, the only other bidder on road 143, was \$200,000 above the Groves Sons Company.

The Belle Glade-Pahokee road, originally built by Palm Beach county, was badly damaged by the hurricane and flood in 1925 and its rebuilding by the state was provided for under a special act of the legislature at the 1929 session.

The following girls were elected for the Halloween beauty contest: Margaret Jones, Inez Mansfield and Anna Lee Boynton.
The following boys were elected for the Halloween popularity contest: C. L. Wilder, T. A. Bass, Jr. and Walton Bragg. The winners of both of these contests depend on the public. It will cost only a penny a vote.
Rev. Filly gave a talk in chapel last Friday. His topic was "The Dignity of Manhood." It was most interesting and was a good lesson for the boys of the school.
The pupils of grammar school gave a temperance program last Friday. The program was as follows:

1. American (song).
2. Scripture reading; Dorothy Shearer.
3. Lord's prayer.
4. Recitation, six first grade boys.
5. God's Good Gifts, four first grade girls.
6. What can Little Children Do? Francis Elan.
7. A Sensible Day, Bobbie Thompson.
8. What Shall I Drink? Morris Moore.
9. Protect the Boys, Milton Smith.
10. Recitation, "Danger," Roy O'Neil.
11. Whom Will King Alcohol? Third grade girls.
12. The Cry of the Earth, Helen Simmons.
13. Can a Little Child Like Me? (song), first, second and third grade girls.
14. The Pledge, fifth grade.
15. The Part Alcohol Plays, Sidney Tillman.
16. The Thinker and the Dream, fifth grade.
17. Song, Native Land, fifth and sixth grade boys.
18. Drill, sixth grade boys.
19. Lincoln on Law Observance, Wilmer Neaves.
20. America, the Beautiful.

The school will have a holiday Friday as the teachers are going to Fort Lauderdale for a tri-unity meeting.

Miss Young and Mr. Cox went to West Palm Beach last Saturday for the carnival.

We have our first fire drill Tuesday morning. We got out rather promptly, but not as promptly as we expect to next time. It was quite a surprise as it was the first regular fire drill of the year.

The report cards come out next week. We are all very anxious, for we had tests this week and some of our pupils have been wearing around very few because of the tests.

The home rooms will start next week giving programs each week to the school. The ninth and tenth grades will have the program next Friday.

Y. P. BIBLE CLASS

The good work, being done by the class is improving very rapidly and some of the old members are back again. It is hoped they continue to be prompt in attendance as a fine of one dollar is to be imposed on one who fails to be present. The social to be given at Miss Mock's home was postponed as a teacher, Mr. Langford, cannot be with us on that night. The party will take place at a later date.

CAMPING IN FLORIDA

The setting of cabbage plants had begun in small way in many of the sections of the state, a U. S. department of Agriculture report from Orlando says in a letter dated Oct. 25. For early planting, four states (Louisiana, Florida, Texas and California) show intentions of a reduction from 40,000 acres in 1928 to 34,000 this year. Florida's acreage to be cut from 6,500 to 3,000.

SUGAR MILE SURE IF TRUSTEES OF I. F. FUND TRADE STATE LAND

Continued from Page One

message in the deal is about 11,000 acres.

According to the telegram to The Everglades News the deal is definitely decided but is under advisement by the trustees.

The A. P. Story TALLAHASSEE, Oct. 29.—(AP)—The trustees of the Internal Improvement fund today agreed to exchange state lands with Jacksonville Southern Sugar for the proposed erection of a sugar plant at Canal Point.

The agreement was reached between board and R. G. Dahlberg, president of the company, who appeared before the board, upon condition that the company would erect a plant of not less than 2,500-ton daily capacity, and produce enough sugar cane to support the mill.

The agreement, reached by four of the five members of the board, was also conditioned upon subsequent ratification by the full board.

Mr. Dahlberg reached here last night, after a partial trip from Clewiston to Tallahassee by airplane, to appear before the trustees of the Internal Improvement fund to propose the land exchange.

The proposed Canal Point plant, which would augment the company's factory at Clewiston, would be of 5,000-ton capacity, and, with accompanying plantings, would represent an investment of about \$300,000, bringing the total contemplated expenditures of the company next year to about \$160,000,000, Mr. Dahlberg said.

Between 10,000 and 15,000 acres are involved in the deal with the state. It will be necessary for blocks of land to be exchanged, to consolidate the company's holdings, it was stated.

Mr. Dahlberg, who was accompanied here by Jules Burguiere, was expected to be here today.

UNION CHURCH NEWS

Our Sunday school is growing, but we want especially to see every child who has no other church home added to our number. We want the young people and adults, too, of course, but the little ones need to be brought up in the "nurture and admonition of the Lord." Sunday school at 10 a. m.; Roy Crowley, superintendent.

A special preaching service for the children is to be the feature on next Sunday morning, November 3. The younger members of the Sunday school are to act as readers of scripture, as ushers, and in every way possible, take an active part in the service. Brother Arant will have a short message specially adapted to the occasion as a children's service.

Adults are urged to attend in order to encourage the little ones and make them feel that their efforts are appreciated.

The intermediate class of the Union Sunday school gave a Hal-pence on Bonfire on East Wade's playground on Halloween.

At 7 o'clock on Sunday evening, Nov. 3, there is to be a community song service to which every one who enjoys taking a part in singing is especially invited. Tell your friends and neighbors. There will be no speaker for the evening but every one will be given an opportunity to recite a verse of scripture between the songs.

Just an hour of worship and praise in song and scripture service. Don't forget the hour—7 o'clock.

Community sing—Union church. W. J. THOMAS, Pastor.

executive vice president of the company, and F. D. Duff, one of its managers, spent last night at Inverness after his plane, which was delayed several hours in the take-off from Clewiston, was overtaken by darkness. Mr. Dahlberg and his associates came on to Tallahassee by train from Inverness, the plane reaching here this morning to take them home.

MENDING PALMAY TREES

Members of the Dade County Palmyra Growers Association were told how to treat storm-damaged palmyra trees at a meeting Thursday night at the court house. Dr. F. Peterson gave minute directions for the salvage of trees not wholly destroyed. He advocated cutting off the trunks to a height of three feet and covering the raw surface with tin caps. Dr. Woodson told of having successfully used old automobile tubes for making rain proof caps.

Notwithstanding their recent losses, the palmyra growers are making plans for the future.

THE ITC PARASITE AND THE TROPICS

Where breeding never occurs there live certain low types of vegetable parasites or Parasitic Bodies dependent for their existence on warmth and moisture. The living tissues of man and lower animals provide the place where they can live and multiply. Here they show their presence in various ways.

The ITC Parasite is first in importance and shows in Ringworm, Warts, Itch, Glands, Itch and Tropical Sores that often become Indolent Ulcers, Scabies on hands and feet, Sore Throat and Sore Feet, chiggers, eye types among animals. All yield to the same treatment.

Anger's ITC Medicine applied, quickly dries and requires no dressing. Once the Parasite is eliminated a healthy skin forms and the sore rapidly heals.

Fifty cents at all druggists or sent direct by mail on receipt of price.

Manufactured by A. N. APGAR, 1706 N. W. 5th St., Miami Fla. Send for our interesting booklet, "The ITC Parasite and the Tropics."

NEWS FROM AROUND THE BIG LAKE

SOUTH BAY

October 29. The Strickland brothers, who are farming on Rittia Island, made a trip to South Bay for supplies yesterday. Mr. Strickland reported that plowing and planting is going forward rapidly on the island now and that it will not be long until some farmers will be ready to ship.

Walter Templeton made a hurried business trip to South Bay recently to inspect cropping operations on his farm. He reports that his brother Charles of Sarasota is not as well as usual.

Mrs. J. M. Templeton, who makes a pleasure trip to Miami recently, visited at the home of Contractor and Mrs. Lambert and says that everyone in Miami is busy preparing for the opening of the tourist season and confidently looking forward to a prosperous winter.

Edith Scroggins, daughter of Mrs. Joe Lockmiller, is attending school in Athens, Tenn. this year. Edith Jones, Jr., son of Mrs. G. W. Grogan, and little Dick are attending in the West Palm Beach schools this year. The young son of Martin Terise is going to school in New York city this fall. The two Wilder children are staying for the present in Alabama and attending school. Peggy Mather, daughter of James Mather, a student engineer, is attending school in West Palm Beach this fall. Lillian Thigpen is enrolled in the public school of Miami for the year.

Frank S. Lee, real estate agent, has crops around South Bay and is looking fine and the acreage is increasing every day.

A recent letter from Mrs. O. V. Bellotti states that she is in poor health and expects to leave Montara for Rochester, Minn., for treatment. From there she will come home, where she will be joined by her son in December and together they will go to Arizona.

Mr. and Mrs. Charles Forbes are awaiting the arrival of a daughter, Patricia Lee, on Monday.

Mrs. Doyle Crocker and infant son have returned from Round Mountain, Ala., where they spent the summer.

Mr. Webb's daughter, Mrs. Agnes Hays, and small daughter, Betty Lou, are here from Chisholm, Ala.

The new class in home hygiene met for the first time Thursday at the home of Mrs. H. C. Wynn, under direction of Miss Synhorst. Fifteen women were present and a total enrollment of 21 was obtained.

Miss Howell, county nurse, accompanied by a nurse from the Red Cross was here Friday looking after the interests of the school children.

R. Parrel and Mrs. McAllister, from Red Cross headquarters in West Palm Beach, passed through South Bay for Clewiston Thursday.

John Thomas of Canal Point was in town recently in the interests of organizing a football team here. There are already some teams at Canal Point and Pahokee. The super company at Canal Point has a team and the Star Club at Pahokee also has one. Interest has been worked up in South Bay and a location for a diamond is sought. These teams will form a nucleus for an Everglades League of indoor baseball with a regular schedule of games.

Mrs. Lord, chairman of the Beautification committee of the Parent-Teacher Association, was here Saturday to confer with Mrs. Denton concerning the landscaping of the school grounds. The Brown Company will donate the plants to the school.

W. H. Rawie has secured the contract for installing, erecting and fitting in the new school, building now being erected in Belle Glade.

Mrs. Babington from Jacksonville, who is visiting with Mr. and Mrs. J. M. Templeton, is staying at the home of Mrs. J. M. Templeton.

Mr. and Mrs. J. M. Templeton, who are visiting with Mr. and Mrs. J. M. Templeton, are staying at the home of Mrs. J. M. Templeton.

MRS. M. MITCHELL TO BE HEAD OF CLUB

Elected To Direct Home Demonstration Work For The New Term

SOUTH BAY, Oct. 29.—The Home Demonstration Club met on Friday afternoon at the home of Mrs. H. C. Wynn. Mrs. Edith Morgan Barnes gave an interesting talk on milk products, illustrating her lecture with refreshments in the form of a milk drink. A contest for children. Mrs. V. C. Denton, president of the organization, presented her report on her trip to Gainesville.

This being the last meeting of the club for the year, the election of officers for the coming year was held. Mrs. Dan Mitchell was elected president. Mrs. M. J. Mitchell vice president. Mrs. M. J. Mitchell secretary and Mrs. V. C. Denton treasurer.

The club, which was the gift of the Greater Palm Beach Women's Athletic committee, was presented last evening jointly by the communities of Belle Glade, South Bay, Canal Point and Pahokee.

The library, which was the gift of the Greater Palm Beach Women's Athletic committee, was presented last evening jointly by the communities of Belle Glade, South Bay, Canal Point and Pahokee.

BELLE GLADE

Around The Lake

Oct. 28. An old fashioned quilting bee took place Tuesday afternoon at the home of Mrs. G. W. Freese in Okeechobee and finished a quilt for the Baptist orphanage at Fort Myers.

Dr. T. N. Kennedy of Leesburg, district deputy game commissioner, made an official visit to Moore Haven last week to arrange for enforcement of the game laws in the season that opens November 30.

The Moore Haven city millage has been set at 25. It is 38 last year. Three mills of the reduction in the general revenue fund and 9 mills in the interest and sinking fund.

Tourists' cars are beginning to show up in all of the lake region towns of the south.

Commercial fishing does not seem to be much of a business this season; the Moore Haven and Okeechobee papers seldom report the catches.

JACK HUGHES AT ARCADIA RODEO
Former Cowboy-Shoeman

A rodeo performance is to be put on at Arcadia November 11 and 12 by the American Legion of that city and is attracting the attention of Florida cowboys. The rodeo will be directed by "San Angelo Jack" Hughes, who has been in the wild west show business since his early youth.

Announcing the rodeo, the Arcadian describes "San Angelo Jack" as a "real western cowboy with years of actual range experience and with several other years of show experience."

"Jack Hughes was with the Buffalo Bill show when it made its famous tour of the Old World," the Arcadian paper says. "Later on Hughes was attached to the famous show of Miller Brothers."

"San Angelo Jack" Hughes is a San Diego, a dentist, son of Mr. and Mrs. A. H. Hughes of Pahokee and brother of Mrs. W. H. Vann of Canal Point. He was living here when the American Legion wrote to the Billboard and asked to be put in touch with a man qualified to direct its rodeo.

The Billboard referred the inquiry to Dr. Hughes at Pahokee and he accepted the call. The Dodge County people were delighted to have a boy Dr. Hughes had lived at Nocatee and there is high enthusiasm at Arcadia over the rodeo.

MANLEY GUILTY OF BANK FRAUD

He Breke Many Florida Banks: \$50,000 From Moore Haven

W. R. Gary, formerly cashier of the now defunct Bank of Okeechobee, and J. D. Hinton, receiver of the Bank of Moore Haven, were witnesses at the trial of W. D. Manley, president of the Bankers' Trust Company at Atlanta in 1926, the failure of which brought about the closing of 86 banks in Georgia and Florida.

The Bank of Moore Haven lost \$50,000, which was supposed to be on deposit with the Bankers Trust Company but which the receiver and other authorities have been unable to locate.

Manley was convicted and sentenced to seven years in the Atlanta federal penitentiary and to pay a fine to compensate in part for the government's expenses of the trial.

Air Bath Aids Some Seeds To Germinate
Boyce Thompson Institute For Plant Research Finds Way To Speed Reforestation

YONKERS, N. Y., Oct. 26.—Possibilities of speeding up reforestation and the growth of plants useful to man have been opened by a series of developments at the Boyce Thompson Institute for Plant Research.

"Studying one of the critical periods in nature's reproduction processes, the germination point, the institute found that instead of being always a prodigious profit as reputed, many of the plant children are absurdly slow—held, as it were, by hide-bound traditions which plant experts think can be broken."

One of these delays, something akin to the habit of taking a winter vacation in the Alps before going to work and growing, has been spotted and partly remedied at the institute.

This peculiarity is aptly shown by the seeds of the Cornus Florida, the common dogwood. They will not germinate if gathered from the tree and planted in moist soil at room temperature.

If, however, they are kept for 120 days in temperatures ranging from freezing to 50 degrees Fahrenheit, in moist soil, they germinate soon after being returned to the warm room.

Rose growers who have seen profit made, and hosts of amateur rose enthusiasts, now may understand one of their puzzles. The institute has found that many roses are partial to cold, not to alpine cold, but a very special kind of cold, just above freezing.

That might not be so difficult if there were uniformity about their season periods, but there is none. One rose species needs 60 to 80 days of cold, while a related rose has to have 120 to 140 days, says Dr. William Crocker, director of the institute.

Something happens to seeds in the cold, dormant period. What it is, the institute does not know.

In the institute scientists now are working to discover, with the idea of producing a substitute for the cold treatment.

If that is done, they will not regard it as an "improvement on nature," but simply as bringing her up to date, putting her abreast of her modern job.

COLD STORAGE PEPPERS
Here's something more for Florida truckers to think about: New Jersey growers are picking their late peppers carefully, grading them and packing them in bushel baskets and putting them in cold storage warehouses. Recent experiments indicate the peppers keep fresh and crisp for a long time.

RED CROSS CONFERENCE
Several residents of Moore Haven attended a Red Cross conference at Lake Wales Wednesday. Fred A. Flinders was one of the speakers.
